Reference : OEL 842-65, dated 28 June 1965; Subject: Clandestine Module Systems

At the current time we regard nanowatt devices to be in the research category. ORD has a program in this area which we are monitoring. When these devices move from the research into the development phase, we will, of course, incorporate them into equipment. By copy of this memo, OPD and AND are hereby informed of our estimate of this situation in compliance with the request in the second paragraph of the reference.
